SERIES OVERVIEW

When 13 year old identical twins arrive at Liberty College for a fresh start, they step into a world that is both exciting and overwhelming. Everyone is curious about them—who they are, where they're from, and how long they'll last. With their parents living overseas, the twins must navigate dorm life with girls aged 13 to 17, build new friendships, face challenges, and discover who they truly are. Through school routines, late night talks, art, music, sports, and unforgettable moments—they learn that home isn't just a place... it's the people who become your sisters.
